Under federal law, group health plans that provide medical and surgical benefits in connection with a mastectomy must provide benefits for certain reconstructive surgery, effective for the first plan year beginning on or after October 1, 1998. If an eligible participant or spouse has a mastectomy and breast reconstruction the Plan will provide coverage, subject to annual deductibles and coinsurance provisions, for the services and supplies following the procedure as follows:

- All stages of reconstruction of the breast on which the mastectomy was performed;
- Surgery and reconstruction on the other breast to produce a symmetrical appearance; and
- Prostheses and treatment of physical complications of all stages of mastectomy, including lymphedemas.
