How Well Funded Is Your Plan?

The law requires the Plan’s administrator to explain how well the Plan is funded, using a measure called the “funded percentage.” The funded percentage is calculated by dividing Plan assets by Plan liabilities. In general, the higher the percentage, the better funded the plan. The chart below shows the Plan’s funded percentage for the Plan Year and the two preceding plan years. It also lists the value of the Plan’s assets and liabilities for those years.

	Funded Percentage		
	2025	2024	2023
Valuation Date	1/1/2025	1/1/2024	1/1/2023
Funded Percentage	95%	92%	89%
Value of Assets	\$1,213,787,711	\$1,171,769,081	\$1,131,684,334
Value of Liabilities	\$1,277,483,538	\$1,274,052,620	\$1,265,208,699

Year-End Fair Market Value of Assets

To provide further insight into the Plan’s financial position, the chart below shows the fair market value of the Plan’s assets on the last day of the Plan Year and each of the two preceding plan years as compared to the actuarial value of the Plan’s assets on December 31.

- **Actuarial values (shown in the chart above)** account for market fluctuations over time. Unlike market values, actuarial values do not change daily with stock or market shifts.
- **Market values (shown in the chart below)** fluctuate based on investment performance, providing a more immediate snapshot of the plan’s funding status.

	12/31/2025	12/31/2024	12/31/2023
Fair Market Value of Assets*	\$1,341,869,257	\$1,226,368,752	\$1,112,414,822

*The market value of assets shown as of 12/31/2025 is an estimate based on unaudited financial information prepared by the Fund Office. The market value of assets as of 12/31/2024 is updated from the estimated value reported in last year’s notice to the audited amount.

Endangered, Critical, or Critical and Declining Status

Under federal pension law, a plan’s funding status determines the steps a plan must take to strengthen its finances and continue paying benefits:

- **Endangered:** The plan’s funded percentage drops below 80 percent. The plan’s trustees must adopt a funding improvement plan.
- **Critical:** The plan’s funded percentage falls below 65 percent or meets other financial distress criteria. The plan’s trustees must implement a rehabilitation plan.
- **Critical and Declining:** A plan in critical status is also designated as critical and declining if projected to become insolvent—meaning it will no longer have enough assets to pay out benefits—within 15 years (or within 20 years under a special rule). The plan’s trustees must continue to implement the rehabilitation plan. The plan’s sponsor may seek approval to amend the plan, including reducing current and future benefits.

The Plan was not in endangered, critical, or critical and declining status in the Plan Year.

Participant and Beneficiary Information

The following chart shows the number of participants and beneficiaries covered by the Plan on the last day of the Plan Year and the two preceding plan years. The numbers for the Plan Year reflect the plan administrator's reasonable, good faith estimate.

Funding & Investment Policies

Funding Policy

Every pension plan must establish a funding policy to meet its objectives. The funding policy relates to how much money is needed to pay promised benefits. The funding policy of the Plan has been developed over the past 30 years based on the requirements of ERISA and the standards set forth in the Trust Document. Employer contributions are paid into the Trust Fund which was established solely to provide retirement benefits for active and retired participants of the Automobile Mechanics' Local No. 701 Union and Industry Pension Fund. Each year the Board carefully reviews an audit report and actuarial valuation report to measure current assets against current liabilities. When necessary, the Board makes changes to the Plan to preserve the assets and benefits promised in the Trust Fund. The goal is to ensure that the Plan can meet its financial obligations to all active participants, retirees and beneficiaries over the next several decades.

Investment Policy

Pension plans also have investment policies that provide guidelines for making investment management decisions. The investment policy of the Plan is designed to guide the activities necessary to maintain compliance with the policies and guidelines approved by the Plan's fiduciaries. The following table summarizes the asset allocation policy targets and ranges that have been adopted for the Plan:

Asset Class	Policy Target as a Percent of Total Assets	Policy Range
US Equity	54.5%	± 5.0%
International Equity	5.0%	± 3.0%
Fixed Income***	25.8%	± 5.0%
Debt Real Estate	4.7%	± 3.0%
Equity Real Estate	10.0%	± 5.0%

***The allocation to cash is included in the fixed income portion of the asset allocation policy. An adequate cash reserve level will be maintained to meet benefit payments and expenses.

As of the end of the Plan Year, the Plan's assets were allocated among the following investment categories as percentages of total assets:

Asset Allocation	Percentage
Public equity	61.4%
Private equity	0.0%
Investment grade debt instruments	21.2%
High-yield debt instruments	1.6%
Real assets	10.3%
Cash or cash equivalents	0.6%
Other	4.9%

The average return on assets for the Plan Year was 12.8%.

Right to Request a Copy of the Annual Report

Pension plans must file an annual report, called the **Form 5500**, with the U.S. Department of Labor. The Form 5500 includes financial and other information about these pension plans.

You can get a copy of your Plan's Form 5500:

Or you may obtain a copy of the Plan's annual report by making a written request to the plan administrator. Annual reports do not contain personal information, such as the amount of your accrued benefit. You may contact your plan administrator if you want information about your accrued benefits.

Summary of Rules Governing Insolvent Plans

Federal law has a number of special rules that apply to financially troubled multiemployer plans that become insolvent, either as ongoing plans or plans terminated by mass withdrawal. The plan administrator is required by law to include a summary of these rules in the annual funding notice. A plan is insolvent for a plan year if its available financial resources are not sufficient to pay benefits when due for that plan year. An insolvent plan must reduce benefit payments to the highest level that can be paid from the plan's available resources. If such resources are not enough to pay benefits at the level specified by law (see Benefit Payments Guaranteed by PBGC, below), the plan must apply to PBGC for financial assistance. PBGC will loan the plan the amount necessary to pay benefits at the guaranteed level. Reduced benefits may be restored if the plan's financial condition improves.

A plan that becomes insolvent must provide prompt notice of its status to participants and beneficiaries, contributing employers, labor unions representing participants, and PBGC. In addition, participants and beneficiaries also must receive information regarding whether, and how, their benefits will be reduced or affected, including loss of a lump sum option.

Benefit Payments Guaranteed by PBGC

Only vested benefits—those that you've earned and cannot forfeit—are guaranteed.

What PBGC Guarantees

PBGC guarantees "basic benefits" including:

- Pension benefits at normal retirement age.
- Most early retirement benefits.
- Annuity benefits for survivors of plan participants.
- Disability benefits for disabilities that occurred before the earlier of the date the plan terminated or the sponsor's bankruptcy date.

What PBGC Does Not Guarantee

PBGC does not guarantee certain types of benefits, including:

- Any benefits above the normal retirement benefit.
- Disability benefits in non-pay status.
- Non-pension benefits, such as health insurance, life insurance, death benefits, vacation pay, or severance pay.

Determining Guarantee Amounts

The maximum benefit PBGC guarantees is set by law. Your plan is covered by PBGC's multiemployer program. The maximum PBGC guarantee is \$35.75 per month, multiplied by a participant's years of credited service.

PBGC guarantees a monthly benefit based on the plan's monthly benefit accrual rate and your years of credited service. The guarantee is calculated as follows:

1. Take 100 percent of the first \$11 of the Plan's monthly benefit accrual rate.
2. Take 75 percent of the next \$33 of the accrual rate.
3. Add both amounts together.
4. Multiply the total by your years of credited service to determine your guaranteed monthly benefit.

Example 1: Participant with a Monthly \$600 Benefit and 10 Years of Service.

1. Find the accrual rate: $\$600/10 = \60 accrual rate.
2. Apply PBGC formula:
 - a. Take 100 percent of the first \$11 = \$11
 - b. Take 75 percent of the next \$33 = \$24.75
3. Add the two amounts together: $\$11 + \$24.75 = \$35.75$
4. Multiply by years of credited service: $\$35.75 \times 10 \text{ years} = \357.50

In this example, the participant's guaranteed monthly benefit is \$357.50.

Example 2: Participant with a \$200 Monthly Benefit and 10 Years of Service.

1. Find the accrual rate: $\$200/10 = \20 accrual rate.
2. Apply PBGC formula:
 - a. Take 100 percent of the first \$11 = \$11
 - b. Take 75 percent of the next \$9 = \$6.75
3. Add the two amounts together: $\$11 + \$6.75 = \$17.75$
4. Multiply by years of credited service: $\$17.75 \times 10 \text{ years} = \177.50

In this example, the participant's guaranteed monthly benefit is \$177.50.
